

What is a 14-DAY DISASTER SUPPLY KIT?

Living on an island means that it is extremely important to have a 14-day disaster supply kit. Unlike areas in the continental US, Hawai'i residents don't have the option to drive somewhere that hasn't been impacted when a hurricane happens. We must be ready with food, water, and emergency supplies in case goods cannot be offloaded from ships, transportation on island is not available, or utilities are out.

Your 14-day disaster supply kit should include everything your household would need to survive for two weeks without utilities or access to outside supplies.

WHERE SHOULD I KEEP MY 14-DAY KIT?

You may need to evacuate with your kit depending on where you live. Most of this kit should be packed ahead of time. You can add more items as needed just-in-time.

Your 14-day kit may be very large/bulky. Some ideas of where to store it:

- In a closet
- Under the bed
- In the garage

14-Day Kit Tips

- Building a 14-day supply can be costly for some families. Start small and grow your kit as you are able.
- Check the expiration dates on your supplies.
- Test your devices periodically.
- Keep a small amount of water on hand. Pack water containers that you can fill just-in-time for the rest of your household's water needs.
- Talk with your household to make sure everyone's needs are met with your 14-day kit.

i Evacuation Go Bag

Some emergencies can occur without notice and there may not be enough time to take your entire 14-day kit with you. It is important to pack a Go Bag of essential supplies from your 14-day kit that you can grab and go quickly if you need to.

What do I need in my 14-DAY KIT?

Make sure your 14-day kit includes enough supplies for each member of your household.
