

Step 3 Make a Plan

Have a Plan before disaster happens. Talk to all family members about the plan.

Disasters can be chaotic and frightening.

Family members should know what is expected of them.

Children should know their Parents' names at the least.

Put a note in the pocket of the person with their name and emergency contact information if the person is a child or an adult who has memory issues. You can also pin the information to their clothing where they will not try to grab at it.

Consider setting up a phone chain. This is where each person in the family is responsible for calling a designated individual instead of one person calling everybody.
